Summary

The objective of the Construction Documents Technologist Program is to improve construction documentation. We encourage individuals to become familiar with the fundamentals and the principles of construction specifications and the organization of construction documents as recommended by CSI.

The program allows individuals to demonstrate their knowledge of CSI's recommended practices in:

- Construction
- Contractual Relationships
- Relationships and Organization of Construction Documents.

A Construction Documents Technologist (CDT) is a person who has demonstrated the basic knowledge of construction fundamentals and the formats of construction documentation as prescribed by CSI and the general conditions of the contract for construction.

Eligibility Requirements

There are no formal eligibility requirements for the CDT program. Membership in CSI is not required. However, CSI members have access to a number of exam-taking benefits, including reduced rates for exam registration study material purchase, and CSI event registration. For more information on membership benefits, visit: www.csinet.org/membership.

Candidate Profile

Application Period

**Fall 2014 Exam Dates:** September 29 – October 25, 2014

**Fall 2014 Registration Period:**
- Early registration deadline: July 31, 2014
- Final registration deadline: August 31, 2014

Application Extension/ Special Exam Arrangements

Please contact CSI directly by calling 800-689-2900 to set up exam dates that fall outside of the regularly scheduled testing windows.

Exam Application Fees

<table>
<thead>
<tr>
<th>Type</th>
<th>Before July 31</th>
<th>After July 31</th>
<th>Non-member Price</th>

</tr>
</tbody>
</table>

Registration includes the exam application fee.

It does not include the CDT Study Workbook, CDT Practice Exam, Project Delivery Practice Guide, or the AIA A-201 or EJCDC C-700 exam source materials, which may be purchased separately.

Applying for an Exam

1. Exam applications may be completed online or by mail.
2. **To register by mail, or fax or e-mail**, obtain a preprinted CSI Application Form or go online to the CSI website at [www.csinet.org](http://www.csinet.org) and select the Certification/CDT tab. Under Quick Tasks select the Download CDT Exam Form (PDF) and download form.
   A. Print out the form. Follow the directions to fill out and send in the form.
   B. Complete payment details. If paying by check, make check payable to CSI. If paying by credit or debit card, indicate credit or debit card type, number, expiration date, and card holder name and billing address of the credit or debit card with which you will pay the non-refundable application fee. **Once your payment has been received and processed, it cannot be refunded.** Please ensure that you are applying for the correct exam before proceeding.
   C. Make a copy of the form for your records.
   D. **Mail** form and your check if paying by check to: CSI
      110 South Union Street, Suite 100
      Alexandria, VA 22314
   E. If paying by credit card, **fax** form to: 703-236-4600
F. To register by e-mail and pay by credit card, scan form and send as an e-mail attachment to: csi@csinet.org with 'CDT Exam Candidate' placed in the Subject line.

3. To register online, go to the CSI website at www.csinet.org and select the Certification/CDT tab. Under Quick Tasks, select Register online to take the CDT exam! by completing the following steps:

A. Login to the CSI website. If you are a new user, create a user name and password or register without joining.

B. Complete the demographic information form and select the next button.

C. Verify your registration information is correct.

D. Select exam type.

E. Review certification examination policies.

F. Proceed to check out.
   a. Select credit or debit card type.
   b. Enter the card number, expiration date, card-holder name, and billing address of the credit or debit card with which you will pay the non-refundable application fee.
   c. Press “Process Payment.” Once your payment has been processed, it cannot be refunded; verify that you are applying for the correct exam before proceeding.

G. You will receive an on-screen notification that your application is complete, and you will be provided with your application reference number.

4. You will receive notice within seven days of receipt of your completed form with payment that your application has been approved.

Scheduling an Exam with Prometric

The CDT is a computer-based exam administered at Prometric test centers throughout the US and Canada.

Once your application is approved by CSI, you will receive an email notification with instructions how to schedule your exam at a Prometric test center using your individual authorization number.

Go to the Prometric website: www.prometric.com/CSI. Select "Locate A Test Center" to view the available Prometric test centers and schedule an exam.
Format
The CDT exam is a computer-based test that contains 120 multiple-choice questions. Twenty of the 120 are pre-test questions that have been included for statistical validation purposes. These additional questions will not be counted when scoring the exam. Candidates have two (2) hours to complete the exam.

Exam Specifications
The proportion of the exam dedicated to each domain is as follows:

<table>
<thead>
<tr>
<th>Domain</th>
<th>Description</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Fundamentals</td>
<td>12%</td>
</tr>
<tr>
<td>2</td>
<td>Project Concept and Delivery</td>
<td>10%</td>
</tr>
<tr>
<td>3</td>
<td>Design Process</td>
<td>12%</td>
</tr>
<tr>
<td>4</td>
<td>Construction Documents</td>
<td>28%</td>
</tr>
<tr>
<td>5</td>
<td>Procurement</td>
<td>10%</td>
</tr>
<tr>
<td>6</td>
<td>Preconstruction</td>
<td>6%</td>
</tr>
<tr>
<td>7</td>
<td>Construction</td>
<td>16%</td>
</tr>
<tr>
<td>8</td>
<td>Lifecycle Activities</td>
<td>6%</td>
</tr>
</tbody>
</table>
Exam Content Outline

1. Fundamentals
   
   A. Job roles and responsibilities of the four project teams (i.e., owner team, design team, contractor team, and supplier team; tripartite relationships)
   
   B. Facility life cycle with associated activities and documents
   
   C. Written Formats (e.g., OmniClass™, Uniformat™, MasterFormat™, GreenFormat™, SectionFormat™, PageFormat™)
   
   D. Graphic Formats (e.g. National CAD Standard)
   
   E. Principles of communication (4Cs – clear, concise, correct, complete; complete contract document language and coordination)
   
   F. Legal implications of contract documents
   
   G. Sustainable design and construction

2. Project Conception and Delivery
   
   A. Programming, planning and pre-design
   
   B. Feasibility and impact studies, and facility evaluations
   
   C. Design and construction services
   
   D. Budget
   
   E. Scheduling
   
   F. Delivery methods (e.g., design-bid-build (D-B-B), design-negotiate-build (D-N-B), construction management (CM, design-build (D-B), integrated project delivery (IPD), owner-build (O-B) and contract types (e.g., single- or multiple prime)
   
   G. Team Selection process
   
   H. Site selection activities and purposes
   
   I. Planning for commissioning

3. Design Process
   
   A. Schematic design documentation (e.g., preliminary project description [PPDFormat™], methods of specifying, drawing types)
   
   B. Design development documentation (e.g., outline specification, cost estimates, drawing types)
   
   C. Quality assurance/quality control requirements
   
   D. Procedures to control project variables (e.g., allowances, alternates, unite prices)
   
   E. Estimates of probable cost (UniFormat™ or MasterFormat™
   
   F. Life cycle costs and value analysis
   
   G. Documentation of decision-making process
H. Design considerations and constraints (e.g. aesthetics, regulatory requirements, functional requirements, sustainability, constructability, budget, building systems)
I. Product evaluation and selection
J. Building Information Modeling - BIM

4. Construction Documents

A. Project Manual – Division 00: procurement requirements (e.g., solicitation, instructions, available information – resource drawings, forms)
B. Project Manual – Division 00: contracting requirements and forms (e.g., construction agreements, conditions of the contract, bonds, certificate, modifications, clarifications)
C. Project Manual – Division 01: general requirements
E. Drawings: role and function; scaled and non-scaled views; identification cover sheet, drawing blocks, special line types, shading, dimensions, symbols, and abbreviations; formats; (U.S. National CAD Standard – NCS)
F. Modification process (e.g., addenda, change order instructions, change directive, minor changes in the work)
G. Document coordinator
H. Methods of specifying (i.e., descriptive, reference standard, proprietary and performance)
I. Specification language (e.g., streamlining, indicative, imperative)
J. Hierarchy of general, administrative, and procedural requirements (e.g., General Conditions, Div 01- General Requirements, Part 1 – General
K. MasterFormat™
L. SectionFormat™
M. PageFormat™
N. Warranties
O. Insurance (i.e., builder’s risk, liability [general and professional] worker’s compensation)

5. Procurement

A. Pricing methods (e.g., stipulated sum, guaranteed maximum price, cost plus a fee or without a GMP)
B. Purchasing by owner
C. Pricing considerations (cost analysis, types of costs, overhead and profit)
D. Competitive pricing (e.g., value analysis of substitutions, pricing of various delivery methods)
E. Project information (e.g. distribution and control)
F. Bidding (public or private; addenda)
G. Negotiating process (e.g., value analysis)
H. Purchasing of goods (e.g., purchase orders)
I. Subcontracting (e.g., bid shopping)
6. Preconstruction

A. Notice to proceed, letter of intent to award, or executed agreement
B. Preconstruction submittals (e.g., bonds, insurance, subcontractor lists, schedules, control plans, permits)
C. Roles and responsibilities (i.e., owner, contractor, design professionals, subcontractor, termination for convenience/cause)
D. Meetings and meeting documentation
E. Verification of site conditions
F. Mobilization

7. Construction

A. Meetings and meeting documentation (profree, preinstallation)
B. Submittals (e.g., types, parties involved, product data, shop drawings, samples, and certificates).
C. Site visits, observations, inspections and stopping the Work
D. Quality assurance/quality control implementation (e.g., uncovering and correction of work)
E. Contract interpretations and modifications (i.e., minor modification, change directive, change order, requests for interpretations/information (RFIs), substitutions during construction)
F. Executing the work (field engineering, supervision, coordination, sequencing, scheduling, construction means and methods, examination and verification, preparation, erection, installation, and application, cleaning and construction waste management, protecting install construction, testing and inspection, and project site safety)
G. Claims and disputes (e.g., mediation, arbitration, litigation)
H. Measurement and payment (progress payments, schedule of values, retainage, substantial completion, final completion, and final payment)
I. Project closeout (e.g., correction period, operations and maintenance manuals, record documents, demonstration and training, substantial completion and final completion)

8. Life Cycle Activities

A. Commissioning
B. Role and responsibilities of facility manager
C. Facilities operations and maintenance (e.g., service providers, building management systems)
D. Resource materials (e.g., record documents, BIM)
E. Facility evaluations (basic components)
F. Decommissioning (e.g., demolition, deconstruction)
Exam Development

The CDT exam reflects the results of a professional Body of Knowledge Analysis (BoKA) that determined the subject matter areas (knowledge domains) that are important for a Construction Documents Technologist to master. The purpose of a BoKA is to thoroughly review and update the definition of the subject matter to be tested on the exam so that it reflects the current state of the industry and evolving trends in project delivery, design, construction documentation, construction contract administration, and facility management.

As a result of the intensive work of CSI's CDT BoKA task teams and its professional consultants, the CDT exam includes content not reflected in previous exams. Among the major updates to the CDT, which have been included in the Project Delivery Practice Guide (PDPG), are:

- Sustainability, as reflected in green building. Sustainability is a critical imperative driving design and construction in the 21st century. The BoKA recognized the need for CDT holders to have a basic grasp of sustainability concepts.
- New technologies and methods. These hold the promise of transforming design and construction. These developments include building information modeling (BIM) and integrated project delivery (IPD).

The BoKA identified a need for the CDT to accentuate deeper knowledge of the activities and documents associated with the construction stage of a project, along with more exposure to the considerations that go into design, to give CDT holders a better grounding in the day-to-day realities of project development.

The current CDT test forms represent a significant commitment by CSI to provide an examination that reflects current practice and cutting edge developments that affect construction documents and project delivery.

Development of CDT updates are the foundation of appropriate future updates to the advanced certification (CCS, CCCA, CCPR) programs.

Congratulations to all who are participating in the CDT program!
Exam Reference Materials

The CDT examination is based solely on the following documents:

CSI DOCUMENTS

- Project Delivery Practice Guide (PDPG)
- MasterFormat
- UniFormat
- SectionFormat
- PageFormat
- GreenFormat

Many of the CSI documents have been updated in recent years. Candidates are cautioned that older versions, such as MasterFormat 1995, are no longer supported by CSI and should not be relied upon in preparing for the exam.

CONDITIONS OF THE CONTRACT

CDT Study Workbook

CDT Study Workbook is available for purchase at www.csinet.org. The CDT Study Workbook is a guide to help candidates prepare for the CDT Exam. The workbook facilitates a clear understanding of the fundamentals and formats of construction documents, and is comprised of exercises, examples, and practice questions that address the development of facilities and the ins and outs of the process. The structure of the CDT Study Workbook follows the CSI Project Delivery Practice Guide with an emphasis on the CDT Subject Matter Area specifications. It is not a practice exam.

CDT Informational Webinars

View recorded webinars for CDT at www.youtube.com/csiconstruction under the Certification, Education and Professional Training Section.

CSI Chapter CDT Courses

Don’t hesitate to ask your local chapter to help you prepare for an exam. Many CSI chapters offer CDT prep programs. Contact your local chapter for information about their prep courses. To find a Chapter Study Course go to: www.csinet.org/chapterprep.

CDT Prep Course

The CDT Prep Course is a series of webinars that provide an overview of the fundamentals and formats of construction documents as promulgated by CSI and the general conditions of the contact for construction. The CDT Prep Course lays the groundwork for understanding the development of facilities and the ins and outs of the processes and, most important, prepare students for taking the CDT exam. http://eo2.commpartners.com/users/csi/category.php?cat_id=78
Project Delivery Practice Guide (PDPG) Flash Cards

Use Project Delivery Flash Cards to review for your CDT exam. PDPG flash cards are available for

Download, http://csinet.org/pdflashcardsdownload
CSI Certificate Policies

CSI exam application fees are non-transferable to another individual.

Candidates who are unable to sit for a scheduled exam may request rescheduling within the same exam window or cancellation with the possibility of a full or partial refund of the application fee. Cancellation requests must be submitted to the Institute in writing using the appropriate request form. The form is available at www.csinet.org. Also a scheduled appointment with Prometric must be cancelled separately through Prometric via www.prometric.com/csi or 1-800-503-8991.

Candidates who do not request a cancellation and do not sit for the exam forfeit all fees. Candidates who then wish to sit for the next exam window must submit a new application and fee.

- Cancellation requests received at least 30 calendar days prior to the first day of the test window will be refunded 100% of the exam fee.
- Cancellation requests received less than 30 calendar days prior to the first day of the test window will be refunded 50% of the exam fee.
- Cancellation requests received less than 14 calendar days prior to the first day of the test window will not be refunded any portion of the exam fee.

Those who are not successful in passing an exam may retest during the next exam window. Retests require a new application and registration fee.

A list of passing candidates will be posted at www.csinet.org.

Once the CDT exam is passed and a CDT Certificate is obtained, the certificate holder has achieved one mandatory prerequisite for pursuing any one of the higher CSI certifications including:

- CCS - Certified Construction Specifier
- CCCA - Certified Construction Contract Administrator
- CCPR - Certified Construction Product Representative

Achieving the CDT Certificate is a lifetime achievement.
